

Manager of Landfill Operations

The Manager of Landfill Operations course provides a comprehensive study of efficient landfill operations, including site design, regulations, health and safety, cost controls and other issues to consider when planning, operating, and closing landfills.

The course is offered by SWANA as preparation for the Manager of Landfill Operations Certification exam.

Upon Completion of this Course, Participants Will Be Able To:

- Understand the importance, purpose, characteristics, design, and equipment requirements and regulatory environment of landfills
- Manage daily operational procedures
- Improve landfill safety
- Understand construction and surveying practices
- Implement and manage effective monitoring systems
- Maximize your site's administration
- Improve efficiency and control costs.

WHO SHOULD ATTEND

Landfill owners, operators, managers, supervisors, foremen, as well as engineers and employees responsible for daily landfill operation.
